Fleet drivers

STYLE
Short and simple

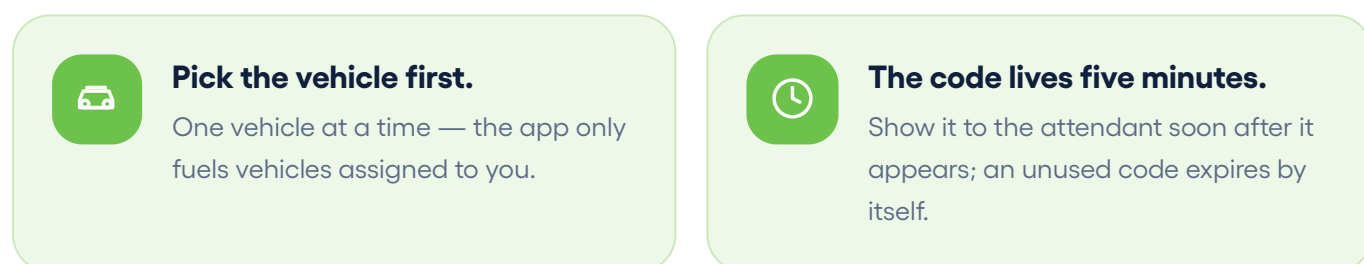

PAIR
Ask your fleet manager or the AI
guide

Five taps. Every time.

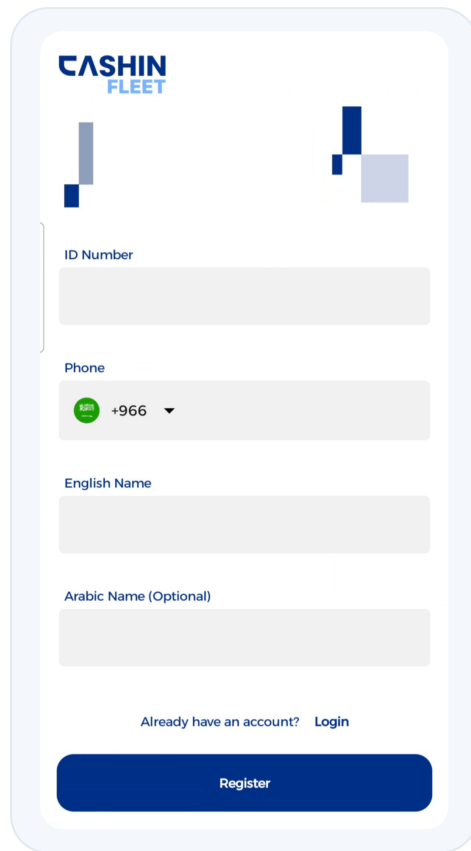

Every refill in the app follows the same short path. Learn it once and never queue for a card again.

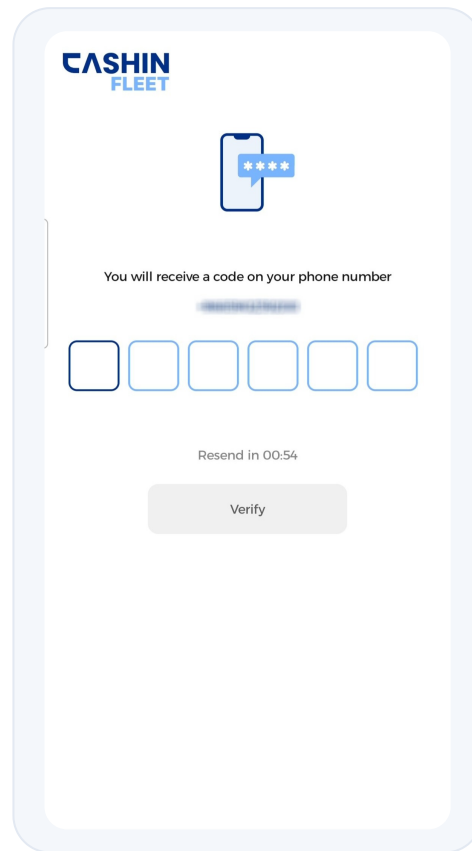

Two rules that never change

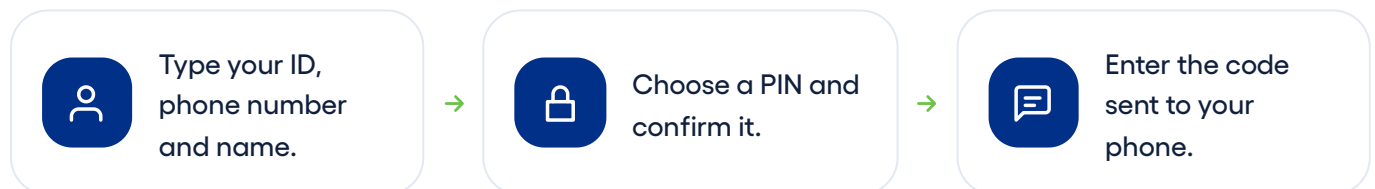

Create your account.

The Register screen for CASHIN FLEET. It features the app logo at the top. Below the logo are four input fields: 'ID Number', 'Phone' (with a dropdown menu showing '+966'), 'English Name', and 'Arabic Name (Optional)'. At the bottom, there is a link 'Already have an account? Login' and a large blue 'Register' button.

Register

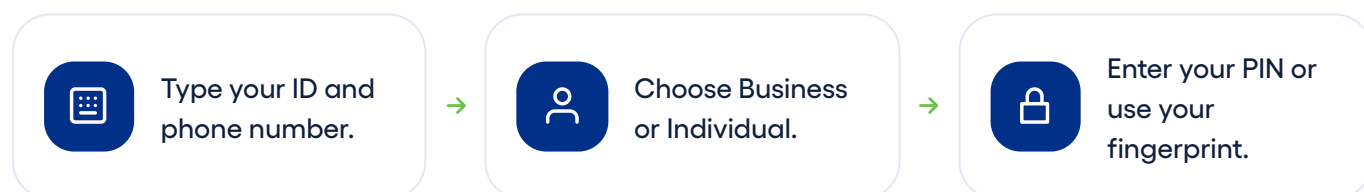

The OTP (One-Time Password) screen for CASHIN FLEET. It features the app logo at the top. Below the logo is a graphic of a smartphone with a code on the screen. The text 'You will receive a code on your phone number' is displayed. Below this is a row of six empty boxes for entering the code. At the bottom, there is a 'Resend in 00:54' timer and a 'Verify' button.

OTP**✓ REMEMBER**

Your company must add you to an account before you can start. If the app looks empty after you register, ask your fleet manager.

Sign in.

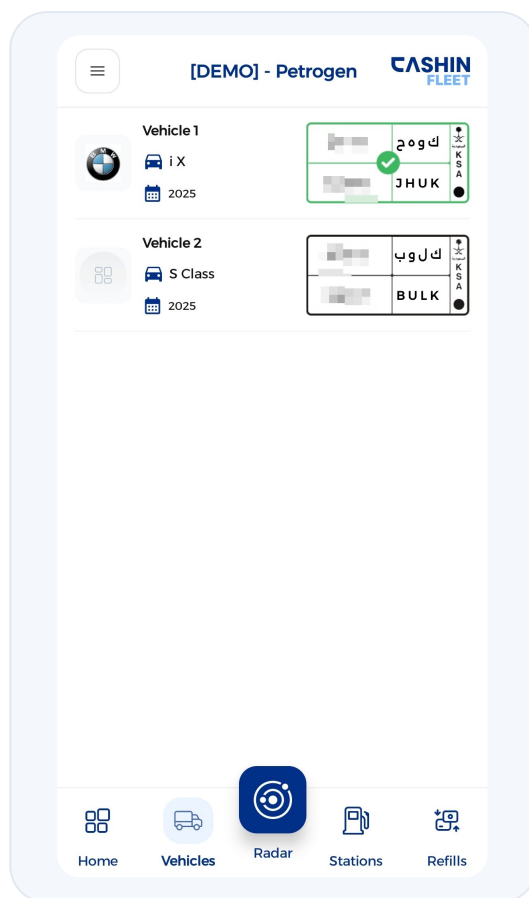

Sign in

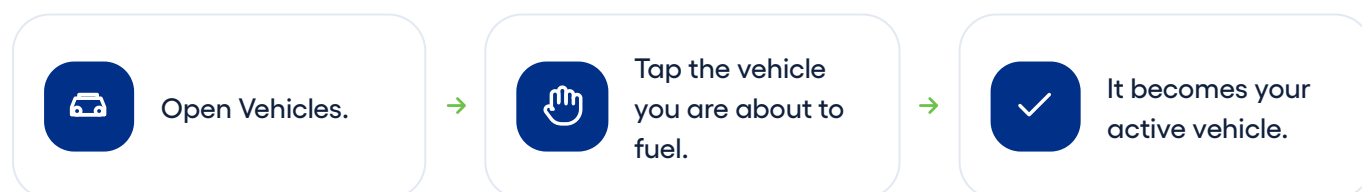

REMEMBER

Business is for company fuel. Individual is your personal account and wallet.

Pick your vehicle.

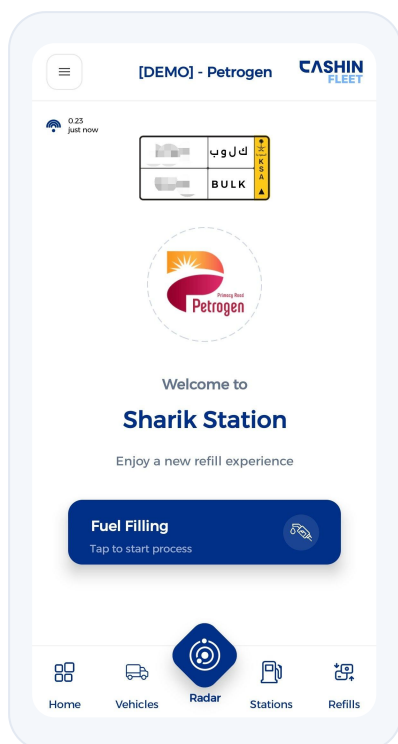

Vehicles

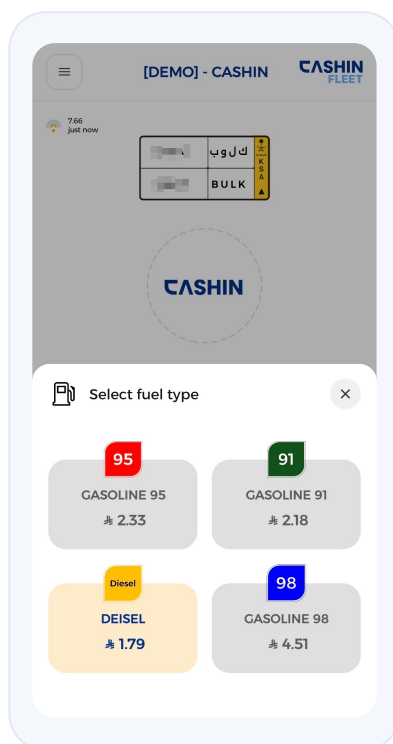

✓ REMEMBER

Only vehicles assigned to you appear here. Missing one? Your fleet manager assigns it from the portal.

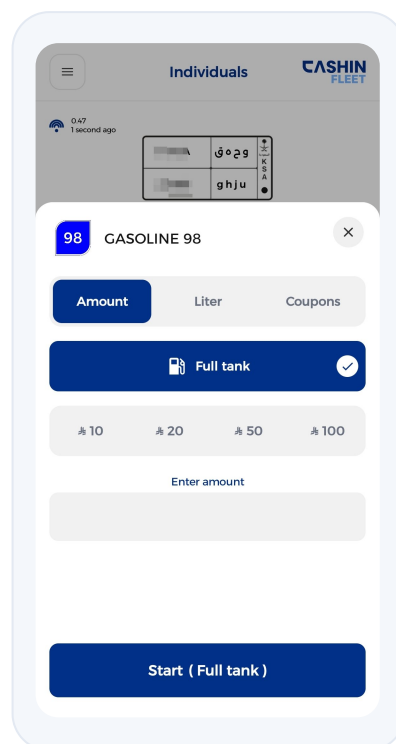

Arrive, choose, enter.

Fuel Filling

Fuel type

Amount or liters

At the station, tap
Fuel Filling.

Pick the fuel type.

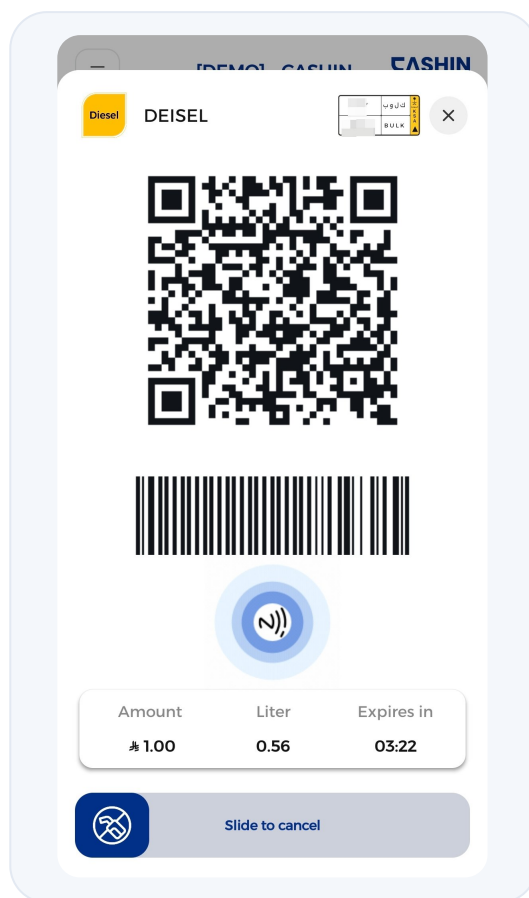

Choose an
amount, liters or
Full Tank.

✓ REMEMBER

A face check and an odometer photo may come first — it depends on your company's policy. Good lighting helps.

Show the code. That's it.

Active fuel filling

Show the QR or barcode, or tap NFC.

The attendant scans it and fuels your vehicle.

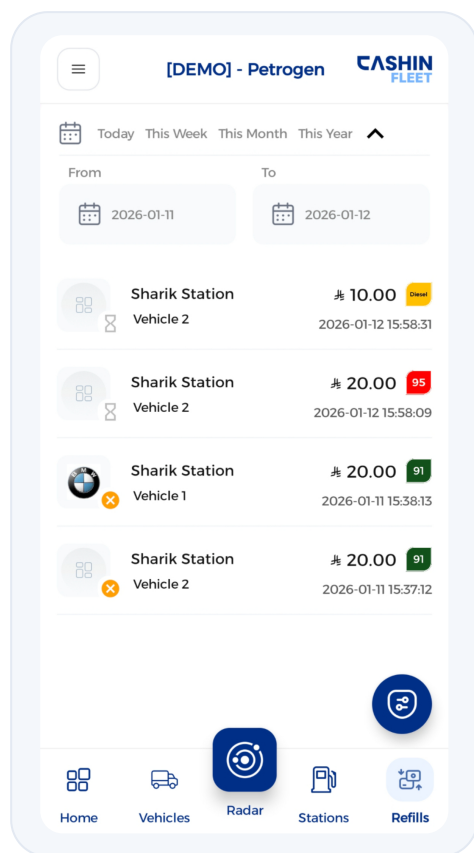

Payment happens by itself.

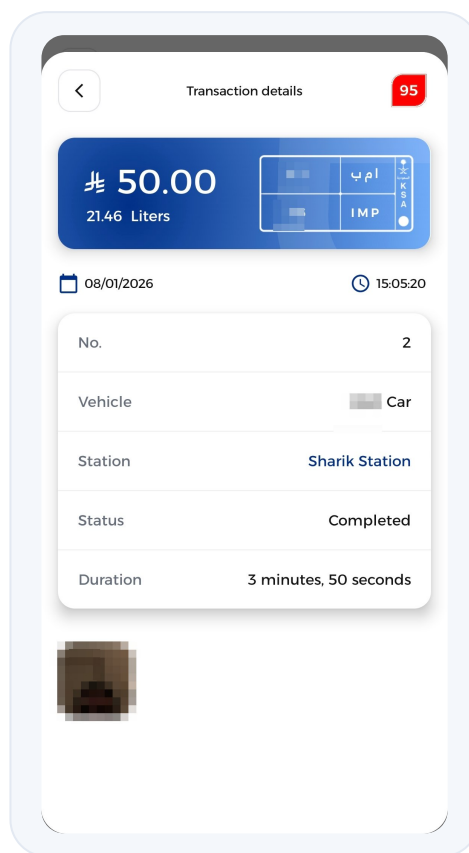

✓ REMEMBER

Changed your mind before the scan? Swipe the cancel button. The code expires on its own after five minutes.

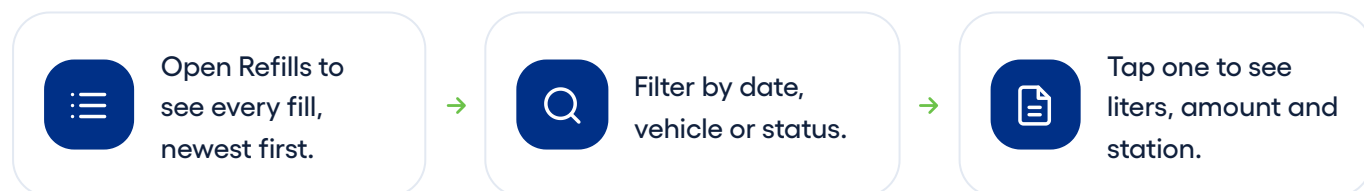

Your refills are all here.

Refills

Details

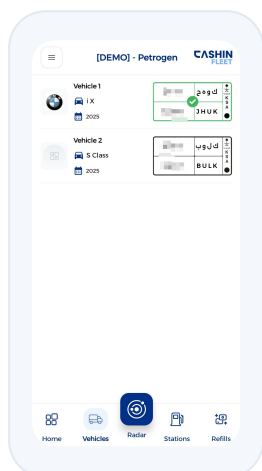

✓ REMEMBER

If a refill shows less fuel than you asked for, the details explain it — the attendant may have reduced the quantity.

Things you don't need to do.

These are set up for you from the CASHIN Fleet Portal. If one of them is wrong, tell your fleet manager.

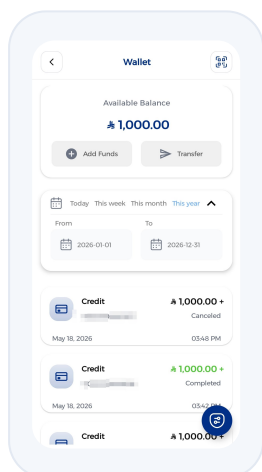

Your vehicles

 Assigned by your company

✓ You pick from the list

Company vehicles cannot be added or edited from the app.

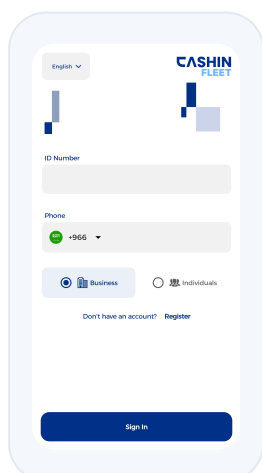

Balance & limits

 Wallet topped up by your company

✓ Fuel policy sets your limits

"Insufficient balance" or "policy violation" — call your fleet manager.

Your details

 Phone, ID and name

⚙️ Changed from the portal

Ask your company to update them.

Do this. Not that.

Pick the vehicle before you start.

Tap Fuel Filling when you are at the station.

Show the code within five minutes.

Keep your PIN to yourself.

Check the refill in your history.

Don't try to fuel two vehicles at once.

Don't start the request from the road.

Don't let the code expire — start again if it does.

Don't share your account with another driver.

Don't pay the attendant separately — the app already did.

You are never alone at the pump.

Ask your fleet manager

Accounts, vehicles, wallet balance and limits are managed by your company. They fix those from the portal.

Ask the AI guide

On **cashin.sa**, the assistant knows every screen in this guide. Ask in your own words — in Arabic or English.
